5 Very effective — 1 Not effective

Please let us know which speakers you found helpful, which less so, and any additional subjects we should have covered

#### LECTURES:

AVERAGE

4.6

- “ Dr Shimu Khamlichi was great. HIV Physician needs to learn first psychological aid and the could be additional
- “ Dr Nora Turjanski because I have need to know for antidepressant and antipsychotic for persons with discover and all other lecturers exceptional.
- “ Treatment of psychological problems, self stigma, treatment for neuro cognitive problems in practice.
- “ All lecturers were exceptional
- “ Most of the speakers were helpful in helping us learn more about the HIV+ treatment
- “ More psychiatric issues. I love Nora's lecture.
- “ All speakers were very helpful. It would be useful for me “more detailed” information about psychological support for children with HIV (and their families as well)
- “ All speakers were good x 4
- “ Lecture about HAND diagnosis, final discussion how psychological support is organised in UK with HIV patients
- “ Mike Youle great topic, first hand experience, wish he had more time. Prof Snezana Brkic useful information. Dr Shimu Khamlichi was great.
- “ All speakers present very useful information and give us a lot of good advice for everyday clinical practice.
- “ I liked all the lecturers, psychologists were great. I liked Mike's lecture. I liked a mixture of professors and how they compliment each other.
- “ I enjoy listening Mike Youle and talk about stigma. It was helpful to have lecture from Shimu Khamlichi and about treatment of psychological problems from Debbie Levitt. The additional for the future it would be nice and useful to hear from psychotherapists experts on this subject.
